**Subject:** Re: Copy of e-mail from turbidity issue on 9/1?

Hi Joyce,

As I recall, we did not do a notification in response to this "heads up". We monitored the situation throughout the day and concluded that the mine site activity did not result in excess turbidity that would trigger notification.

Hi Greg – Did you save a copy of the e-mail you sent out in response to this notification?  
Thanks!

**Subject:** Heads up

Good morning Ms. Lambie. I wanted to give you a heads up that the company Harrison Western will be doing some work up at the Gold King mine portal that might bring some mucking or discoloration down river. I will make sure you get a heads up when the company begins the work.
